Booker Account — Overview

Gigs & Booking · https://mister-mixmania.com/en/support/booker-account-overview/

What is a Booker account?

A free account designed for promoters, clubs, labels, and anyone looking to book artists — no subscription required.

How do I get one?

Only via the personal link in the confirmation email you receive after submitting a booking request. There is no public registration link. The link is valid for 48 hours.

What can I do with a Booker account?

- Track the status of your booking requests (*New / Read / Replied / Declined*)
- Bookmark artists and maintain a personal shortlist
- Set up availability alerts — get notified by email and/or in the portal when an artist matching your criteria becomes available
- Manage your contact details

What's not included?

A Booker account has no public profile, no gig management, no posts, and no access to subscription features. Anyone wishing to be active as an artist or agency needs a regular subscription.

Your area

After signing in, access your dashboard at *Portal → Booker*. The sections:

- **My Requests** — all submitted booking requests with status
- **Alerts** — set up and manage availability alerts
- **Bookmarked Artists** — your shortlist
- **My Account** — name, phone, promoter type, change password
