Community & Connections: Following, Connecting & Contact Requests

Community & Connections · https://mister-mixmania.com/en/support/community-connections-following-connecting-contact-requests/

The portal offers you several ways to get in touch with other profiles:

Following

You can follow Artist, Author and Agency profiles to stay up to date on their activity. Simply click "Follow" on the relevant profile.

Connecting (Artist ↔ Artist / Agency ↔ Agency)

Using the **"Connect"** button on a profile of the same type — Artist to Artist or Agency to Agency — you can request a peer-to-peer connection. The status moves through "Connect" → "Requested" → "Connected". The button only appears if you yourself have a published profile of the same type.

Incoming connection requests are shown directly on your own profile, where you can accept or decline them.

Contact requests (Agency → Artist)

For business outreach between an agency and an artist, there's the contact request: an agency can send a request to an artist to propose representation. If the artist accepts, you can stay in touch via the built-in messaging feature.

Notifications

The bell next to "My Account" keeps you informed about new followers, requests and connections.
