# Editing a Release: The Release Editor

Releases · https://mister-mixmania.com/en/support/editing-a-release-the-release-editor/

**Available for: Artist Light, Pro, Premium, and Agency News & Artists.**

The Release editor is pre-configured to help you provide all the relevant information about your release in a structured way.

**Icon legend:** X = remove block · pencil = edit block

## Title

Enter the title of your release here.

## Description

This block appears next to the cover of your single, album or EP.

- **Playlist:** If you've already created a playlist for the album/EP, select it here. If you don't want to show this part, remove it via the X.
- **Single Audio Player:** Open the pencil and, under "Single Audio Player settings", choose your song from the "Media Library" or upload it, along with a cover image. Confirm with "Save changes".
- **Heading (Video):** Title for a video you'll add in the next step.
- **Video:** URL to the YouTube or Vimeo video.
- **Heading (Tracklist):** Title for your tracklist.
- **Tracklist text block:** This is where you build your album's tracklist — a sample pattern is pre-filled for guidance.
