Gigs, Tours & Booking Requests

Gigs & Booking · https://mister-mixmania.com/en/support/gigs-tours-booking-requests/

Dedicated areas for **Gigs** and **Tours** let you manage upcoming performances and tour dates. Entries you create automatically appear on the portal's public events page.

Booking requests

Interested parties can submit a booking request directly through a form on your profile. You'll be notified and can manage the request from "My Area".

For agencies: team management

If you manage multiple artists, team management helps you organize responsibilities for gigs and booking requests within your agency.
