Press Accreditation & EPK

Press & EPK · https://mister-mixmania.com/en/support/press-accreditation-epk/

Press contacts can get accredited within the portal to gain access to press-relevant content.

EPK (Electronic Press Kit)

You can provide a digital press kit alongside your artist or release profile, available for journalists and promoters to download — including photo, text and, where relevant, audio material.

Document exchange

A dedicated document area is available for the structured exchange of further materials between you and the portal team.
