The Directory: Getting Discovered

Directory · https://mister-mixmania.com/en/support/the-directory-getting-discovered/

In the public **Directory**, visitors can search and filter Artists, Authors and Agencies — including by Music Genre. A published profile automatically appears there.

Visibility

Keep your profile complete (picture, description, genre) — the more complete your profile, the better it's presented in the directory and the easier it is for people to find you.

Filtering & search

Visitors can filter specifically by Artists, Authors or Agencies, and search directly by name or genre.
